

## **EAR TUBES (MYRINGOTOMY) POST OPERATIVE INSTRUCTIONS**

- Keep ears dry for two weeks. Use the Ciprodex or Ofloxacin ear drops, 5 drops, 2 times a day for 7 days.
- As long as ear tubes are in place, ear plugs must be worn for contact with any untreated water source (lake, river, ocean, etc.)

### **Common Questions:**

- |                                          |                                                              |
|------------------------------------------|--------------------------------------------------------------|
| 1. Will there be any pain?               | There is very little or no pain.                             |
